

ADVANCED INTERNSHIP ADMINISTRATORS' EVALUATION DATA

ELCC aligned school administrative internships assess the candidate's leadership skills and ability in a controlled real life setting. The internships require the candidate to demonstrate knowledge and skills in specific performance areas through a series of prescribed activities. (See Building Level and District Level Internship Handbooks) These are aligned with ELCC standard elements 1.1-7.6 and the corresponding performance indicators.

The MA and Ed.D School Leaders programs make up a small portion of the Advanced Programs. As such the survey population is reflective of number of internships conducted over the past 3 years. Additionally, several school leaders in the survey population have served on multiple internships, thus a population of 18 and a response rate of 9, 50% does provided meaningful and useful information for ongoing improvements.

The survey data indicates that the school leadership that responded to the survey were consistent in finding the quality of the Internship and working with ORU in the Internship process was Good to Very Good. One hundred percent of the responses were positive. Additionally the response comments are reviewed and may drive future improvements to the internship process.

Survey Questions	Aggregate Score				
	n	Very Good	Good	Poor	Very Poor
Question #1					
How would you rate the overall quality of the ORU Graduate School of Education Building & District Level Internship Program?	9	55.6%	44.4%	0%	0%
