

### Internship Sites 2011-2014:

The internship will include a variety of substantial experiences in diverse settings, planned and guided cooperatively by University and school personnel. These experiences will provide interns with substantial responsibilities which increase over time in amount and complexity and which involve direct interaction and involvement with students, staff, parents, and community leaders. The internship will provide significant opportunities in the workplace for the intern to synthesize and apply the knowledge and to practice and develop the skills identified in six of the ELCC Standards.

For the candidate in the MA or Ed.D. Christian School leadership degrees; if a Christian School with a diverse student populations is not available, the candidate's second school internship will typically be served in a larger public school with a more diverse student population.
