

OFFICE OF STUDENT RESOURCES

Mission

The Office of Student Resources exists to serve Oral Roberts University students who register for disability services. Effective service includes promoting independence in education and every area of life while being an advocate for students in their quest for becoming whole persons.

The Office of Student Resources strives to cultivate a compassionate and inclusive campus community for individuals with disabilities by ensuring equal access to facilities, programs, and services at Oral Roberts University. The Office of Student Resources partners with faculty, staff, and students to determine and provide reasonable accommodations for students with disabilities.
