

Faculty Profile - Dr. Dominic Halsmer

COLLEGE OF SCIENCE AND ENGINEERING INTRODUCTION TO ENGINEERING

With graduate degrees from Purdue, UCLA and ORU, and several years of experience in the aerospace industry, Dr. Dominic Halsmer brings all his expertise to bear in engaging with his students. His research involves not just the technical aspects of engineering, but also how they relate to a Christian worldview.

About the Course

Engineering is one of the most satisfying careers in the world! Imagine using your ingenuity and resourcefulness, along with your knowledge of the physical world, to create new products that solve people's problems and make life better. That's what engineers do! Join in the exploration of this amazing hi-tech field.
