## GOALS/OBJECTIVES

---

- To prepare teacher candidate in ways that ensure graduates are ready for the wide range of student's interests, needs, cultural backgrounds, and languages are influential variables that present both challenges and opportunities for realities in today's classrooms where Common Core Standards are inculcated.
- The education and development of teacher candidates with ability to interpret educational data as well as select appropriate strategies based on the findings that will address the needs of the learners in their classrooms.

- To educate reflective special education teachers candidates on how to effectively implement and incorporate the latest technologies and techniques base on brain and scientifically based research.
- To promote the advancement of professionalism in the classroom where teacher candidates in special educational can incorporate parents/guardians as important members of the educational team to impact student learning.
- To inculcate special education teacher candidates with the significance of their Christian worldview that they hold will impact their words and deeds and provide a vision of hope and a future for the families they will encounter.
