University Research Committee Recommendation

The ORU Faculty Senate in conjunction with the University Research Committee request creation of a budget for the purpose of Intramural Grant funding. We request this be a restricted account controlled by the University Research Committee in the amount of \$15,000 for the funding of faculty projects in the 2012-2013 academic year. We request that a budget allocation be made on a yearly basis for support of faculty research. From these general funds, individual restricted accounts are to be set up for award recipients to receive dispersments from accounts payable as outlined in the budgets of the approved proposal. Any funds unused at the end of the project will be returned to the general fund of the University Research Committee. Any funds not used by the committee will be carried over into the next academic year.
