President's report

Door Prizes

In order to allow for time for the General Education discussion President Wilson restricted his report to providing an update on the UPC meeting that was held on Thursday March 23, 2017. He stated that after intense review the eight (8) goals remain intact; however many of the objectives and most of the KPIs are under review and amendment. He informed the group that ultimately the changes made will be presented to the Board of Trustees (BOT) in the April 18-20, 2017 meeting. Afterwards the new plan for the new year will be presented to the faculty. Dr. Wilson invited faculty to keep the BOT in prayer. He also introduced the members of the UPC and encouraged faculty to dialogue with them about any questions, concerns or matters they would like to see addressed.

Dr. Reid-Martinez (Provost)

Dr. Reid-Martinez read the summary report of the ORU Academic Council Minutes which was held on March 20, 2017. Highlights of the report included the following:

- Faculty Emeritus Colleges will vote on recommendations which will subsequently be forwarded to the BOT for approval.
- General Education Review- Dr. Andrew Lang presented the proposed General Education Model to the Academic Council and answered related questions. It was clarified that the General Education Model does not alter the established process for course approval. No other business was discussed at the meeting.

Copies of the report were distributed to attendees. Motions to accept the report were made by Dr. Farmer and 2nd by Dr. Mark Hall. The faculty voted to accept the report.

Preamble to the General Education Model

Dr. Reid-Martinez explained the merits of the new curriculum which are encapsulated in the following. It:-

- Furthers the mission by intentionally aligning with the outcomes and proficiencies, and in turn with the core curriculum
- Scaffolds learning in a developmental model. Focuses on higher level learning rather than just content knowledge.
- Requires cross-pollination.
- Focuses on the proficiencies and the core.

She also used a comparison table to depict the changes from the current curriculum (Old) to the one being proposed (New) and indicated where we currently are on the timeline established for the General Education Review. She clarified that the outcomes have not changed, rather the table is indicative of a shift in how some of the outcomes are defined, described or repositioned.

The intercultural experience courses will be designed by the letter "G" and students can meet the intercultural experience requirement by either: -

a. Taking a course that faculty in a department identifies and demonstrate as satisfying the Intercultural Experience requirement and is therefore eligible for the "G-Level" designation. Such courses would be submitted to the Academic Council for approval. Subsequently the approved courses will be added to the University Course Catalog.

b. Taking an intercultural literacy and engagement course. All students must complete at least one "G-course" before graduation.

Proposed General Education Model

Dr. Wilson invited questions from the faculty relative to the General Education Review Model and asked that each speaker expresses whether or not he or she was in support of the document. Some of the questions that emerged during the discussion were:

- ➤ Will there be a reduction in staff as a result of the new curriculum?
- ➤ Will study abroad be counted toward the Intercultural Experience?
- Where do we teach ethical reasoning in the curriculum?
- ➤ What is the distinction between the 6-8 hours on page #3 of the document?
- Could the Engineering students be exempted from the language requirement and have it replaced with another "G-level" course?

The questions were addressed by members of the General Education Committee and the Review Committee as well as the Provost. The primary concern seemed to center on the wording of the second paragraph of the document on page four (4): "**Professionally accredited... are exempt" raised by Dr. Marshall Wright. Dr. Wilson and the Provost assured Dr. Wright and other concerned faculty that the paragraph will be reworded by the General Education Committee and the new wording will be represented at the next UFM. However, the latter would not be a deterrent to the faculty voting on the Model.

Dr. Rhonda Gallagher motioned for a vote seconded by Professor Valentz. The document was passed with a vote of 115 in support, 15 oppositions, and 6 abstentions.

Closing Prayer

Dr. Laura Holland
