Adding Terms & Conditions / Electronic Signature to Your Form

How to add electronic signature to your form.

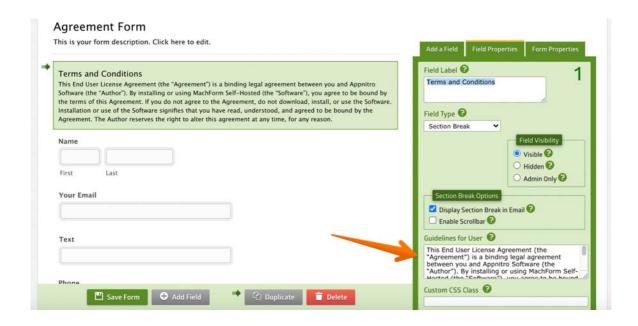

In this article, we'll show you how to create an online contract/agreement form that contains terms & conditions and electronic signature.

Adding Terms and Conditions

Click the **Section Break** field type to add the section break field into your form.

Click the **Section Break** field on the preview section and then paste your terms and conditions text into the **Guidelines for User**.

Select the **Enable Scrollbar** option, so that your terms and agreement text won't consume much of your form space.

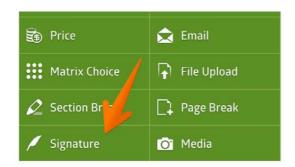

Adding Agreement Checkbox

Add a **Checkboxes** field below your terms and conditions. The field will be created with 3 choices. Delete two of the choices and leave only one choice. Remove the **Field Label** as well.

Adding Electronic Signature

Click the **Signature** field type to add the electronic signature into the form.

Save your form by clicking the **Save Form** button.

The Final Result

Congratulations! You've successfully created your online contract form.
