Social Work Curriculum Map

- * **INTRODUCTORY**- introduce learning goals (update or initial reflection)
- * **DEVELOPMENTAL**- develop/emphasize learning goals (places of formative assessment)
- * **MASTERY**- mastery/measure learning goals (assignments, capstones, places of summative assessment)

Social Work Curriculum Map

* INTRODUCTORY- introduce learning goals (update or initial reflection)

* DEVELOPMENTAL- develop/emphasize learning goals (places of formative assessment)

* MASTERY- mastery/measure learning goals (assignments, capstones, places of summative assessment)

1. Use critical thinking skills within the context of professional social work practice

2. Engage in the practice of social work, developing culturally competence, self-efficacy, and self-regulation within the values and ethics of the profession which reflects an understanding of and respect for the positive value of human diversity

3. Demonstrate the professional use of self in social work practice

4. Understand the various forms and mechanisms of oppression and discrimination and apply professional strategies and skills of change that advance social, environmental, and economic justice

5. Understand the history of the social work profession, along with current structures and systems of all sizes

6. Apply the knowledge and skills of generalist social work to practice in addressing development and behavior, use theoretical frameworks to understand the interactions among individuals and between individuals and social systems of all sizes, and utilize these understandings to evaluate these systems and contexts

7. Analyze the impact of social policies on various client systems, including workers and agencies

8. Evaluate and use research studies to inform and improve practice, policy, and service delivery. Additionally, under supervision, evaluate one's own practice interventions and those of other relevant systems

9. Develop and use both verbal and written communication skills with a variety of client populations and colleagues

10. Make use of supervision appropriate to generalist practice

11. Function within the structure of organizations and service delivery systems; and, under supervision, seek necessary organizational change

12. Apply information technology ethically and appropriately to promote communication and facilitate the goals of social work

13. Integrate the Christian faith with the values and practice of social work
